

Product Identification

- **Product:** Blood Meal
- **Label:** Nutritec
- **Product Registration Number:** RS 004183-1.000001

Product Description

General Description: Blood meal is a product obtained from fresh and clean blood, free of contaminants except for those inadvertently present in accordance with good slaughtering practices.

Physical Properties of the Product

- **Characteristics:** Powdery
- **Cor:** Dark Red
- **Odor:** Typical of Blood Meal

Product Classification and use

Animal-origin ingredient intended for the manufacture of feed for poultry, swine, fish, dogs, and cats, except ruminants.

Storage Method

Store the product in a dry, well-ventilated area, on pallets away from walls, avoiding exposure to light and excessive heat.

Expire Date

6 months.

Restrictions and other recommendations

- **Attention: Strictly prohibited for use in ruminant feed.**
- **FOR EXCLUSIVE USE IN THE MANUFACTURE OF ANIMAL FEED PRODUCTS**
- **NON-EDIBLE PRODUCT**

Basic Composition

Bovine blood meal, preservative additive (formaldehyde, propionic acid, and formic acid), and antioxidant additive (BHA and BHT).

Package Characteristics

The product may be supplied in bulk, in 1,350 kg big bags, or in 35 kg raffia bags.

Transportation

The product may be shipped in 40 HC containers or transported nationally in vehicles with previously sanitized and well-maintained cargo bodies, covered with tarpaulins. The shipment will be accompanied by the product labeling, containing the manufacturing date, expiration date, and production batch, as well as the invoice and the analytical report.

Nutritional Composition

PARAMETERS	STANDARD
Umidity (Max.)	100,0 g/kg
Crude Protein (Min.)	800,0 g/kg
Sodium Chloride (Max.)	10,0 g/kg
Mineral Matter (Max.)	60,0 g/kg

Microbiological

MICROORGANISM	STANDARD
<i>Salmonella spp.</i>	Absent in 25 g
